

Terms and Conditions

Your place on the course will only be confirmed once we have received a complete registration form and payment.

You are entitled to a full refund if you choose to cancel your registration no later than 8 weeks prior to the event. If the cancellation period is between 8 and 2 weeks prior to the event, we reserve the right to refund only half the fee. Thereafter we reserve the right to charge to full amount.

Although every effort will be made to ensure that the course runs as advertised, we reserve the right to change the content, faculty and location. We reserve the right to cancel or reschedule the course at any time but will provide appropriate notice to the delegates. Should delegates not be able to attend at the rescheduled date we will refund the full registration fee but will not be liable for any other losses incurred by the delegates.

By returning your fully completed form, you agree to your personal information being recorded for the purpose of this event and to receive notices for future events.

Please return your fully completed form along with a cheque if applicable to:

Endoscopy in Neurosurgery (EiN) is a course aimed at senior trainees and consultants who wish to embark on a neuro-endoscopic career or advance their neuro-endoscopic skills. It should also be considered a forum for the sharing of experience where appropriate.

The aim of the course is to cover all aspects of neurosurgical endoscopy using lectures, video sessions, live feeds, simulation and cadaveric work (2 candidates per station). The course is designed to familiarise the delegate with neuro-endoscopic equipment and techniques. The faculty consists of neurosurgeons experienced in their respective subspecialties.

The topics covered will include:

- Trans-nasal neuro-endoscopy including extended approaches
- Transcranial neuro-endoscopy (intraventricular, paraventricular and other)
- Spinal neuro-endoscopy

Endoscopy in Neurosurgery

A hands-on course covering all aspects of neurosurgical endoscopy

Wednesday 17th – Friday 19th May 2017
London

Introduction

Endoscopy in Neurosurgery (EiN) is a hands-on course organised by neurosurgeons. It is the only course to cover all aspects of neuro-endoscopy (trans-cranial, trans-nasal and spinal).

The course format consists of lectures, video sessions, live feeds, simulation and cadaveric work (2 candidates per station).

Guy's, King's and St. Thomas' School of Medical Education
King's College London
London SE1 1UL

Registration

Please fill in the registration form opposite.

The fees include participation in the course, lunch and refreshments, course dinner and certificate of attendance.

A reduced fee for a limited number of observers is available. Observers are invited to the hands-on sessions but do not actively partake in them.

Accommodation

The course fees do not include accommodation. There are several hotels within walking distance from the venue and, should you choose to stay further afield, the

venue is a short walk from either London Bridge or Borough Underground Stations.
